

LOSS PREVENTION SERVICES

The cost of workplace injuries can be substantial—medical expenses, lost time from work, decreased productivity, the list goes on and on. Synergy Coverage Solutions has a proven track record of dramatically reducing loss frequency and severity. We believe in injury prevention, which is why we take safety and loss prevention so seriously. Our extensive portfolio of loss prevention services allows our customers access to the professional safety services that best fits their organization’s needs and goals.

Customized Loss Prevention Plans

Every organization is unique—our Loss Prevention Consultants can tailor a plan that best fits your organization’s goals.

Hazard Assessments, Mock OSHA Inspections, as well as CARF-Accredited “Health & Safety Inspections”
