Superior Loss Prevention Services for the Restaurant Industry

Synergy Coverage Solutions knows the restaurant industry presents an environment of unique operations and challenges. Therefore, we will complete a comprehensive safety plan for your entire organization that is tailored to the specific needs of your facility by taking explicit interest in your loss history and exposures. The variety of exposures you contend with daily within each of your departments will be our focus. We can assist you in reducing exposures in every department; why take on this project alone?

Program Development

There is unequivocal proof that safety and loss prevention programs reduce accident frequency and severity. Let us assist in developing programs such as:

- Early Return to Work Programs
- Motor Vehicle Record Monitoring Program
- Drug-free Workplace Programs
- Safety Committee Development: Corporate & Regional
- Hiring Practices
- Workplace Inspection Programs

Onsite Training

As a Synergy Coverage Solutions partner, you have access to onsite training of your staff by one of our certified safety specialists. A sampling of these topics include:

- Slips, Trips and Falls
- Ladder Safety
- Kitchen Safety
- Robbery Prevention and Response
- Defensive Driving

Safety Assessment

Your employees are your most valuable asset. Protecting them is of utmost importance. In creating your facility's personalized loss control program, our goal is to protect your employees, thereby increasing morale, reducing workers' compensation costs, and increasing productivity.

Specialized Services

Housekeeping

Synergy Coverage Solutions is committed to keeping your staff safe. Preventing slips, trips, and falls is our focus in the restaurant industry. To that end, we can assist you in:

- Developing a Formal Shoe Policy
- Establishing a Safety Culture
- Accident Investigation and Prevention

Cuts, Lacerations & Burns

Synergy is dedicated to educating workers and assisting them in taking necessary measures to provide optimum protection.

- Personal Protective Equipment
- Knife Handling & Safety
- Evaluation of Kitchen Equipment & Training
- Burn Prevention Training
- Material Handling Devices

Sprains & Strains

Synergy's Loss Prevention Consultant can help fit the job to the worker in order to reduce the mismatch between the physical requirements of the job and the physical capacity of the worker. In the restaurant industry, we give careful consideration to:

- Hiring an appropriate workforce that is fit-for-duty
- Safe Lifting
- Proper Body Mechanics
- Ladder Safety and Fall Protection

Robbery Prevention & Response

Unfortunately, your staff is at risk for robberies, assaults and other workplace violence hazards. Synergy Coverage Solutions can assist in the following ways to help with this risk:

- Develop and update security plans
- Environment modification to block attackers
- Identify potential warning signs
- Response training
