*** denotes prior approval required**

Online Payment Option

Policyholders can now submit their monthly installment payments online through our website, www.synergyinsurance.net. This feature allows our policyholders to submit payment on, or before, the due date (without extra charges for expedited or overnight services). To submit a secure payment online, simply place your mouse over the "Policyholders" side of our website and select the last option, "Pay Invoice Online" to access the login screen for secure online payment. From there, you will be able to enter your policy information, add bank account information, and confirm your payment amount. Once payment has been submitted, you will receive an online confirmation and an email to confirm your transaction.
